

Angels are messengers created and sent to us by God. They are like the laws of nature. They do not have free will as we do. Each angel has a specific task, often related to its name.

The unique list of names of angels used in this share prayer was given to me several decades ago by a friend in the Old City of Jerusalem. He told me these are the names of angels mentioned in biblical literature. He was a scholar and a family man but subsequently fell from grace, becoming an addict and a beggar.

The purpose and goal of this prayer is to end addiction, dishonesty, hunger, ignorance, illness, poverty and war – and to elevate mankind with awareness, connection, happiness, justice, morality, peace and tolerance.
